

ENGINEERING & TECHNOLOGY

2024 Supplier Summit

JABIL

Agenda

- Intro & Engineering Overview
- Automotive & Transportation E&T
- Digital Commerce E&T
- Cloud & Data Center E&T
- Healthcare E&T
- Summary

Business Segments

REGULATED INDUSTRIES

Focusing on **regulated markets**.

- **Automotive & Transportation**
- **Healthcare & Packaging**
- **Renewables & Energy Infrastructure**

INTELLIGENT INFRASTRUCTURE

Focusing on **AI infrastructure**.

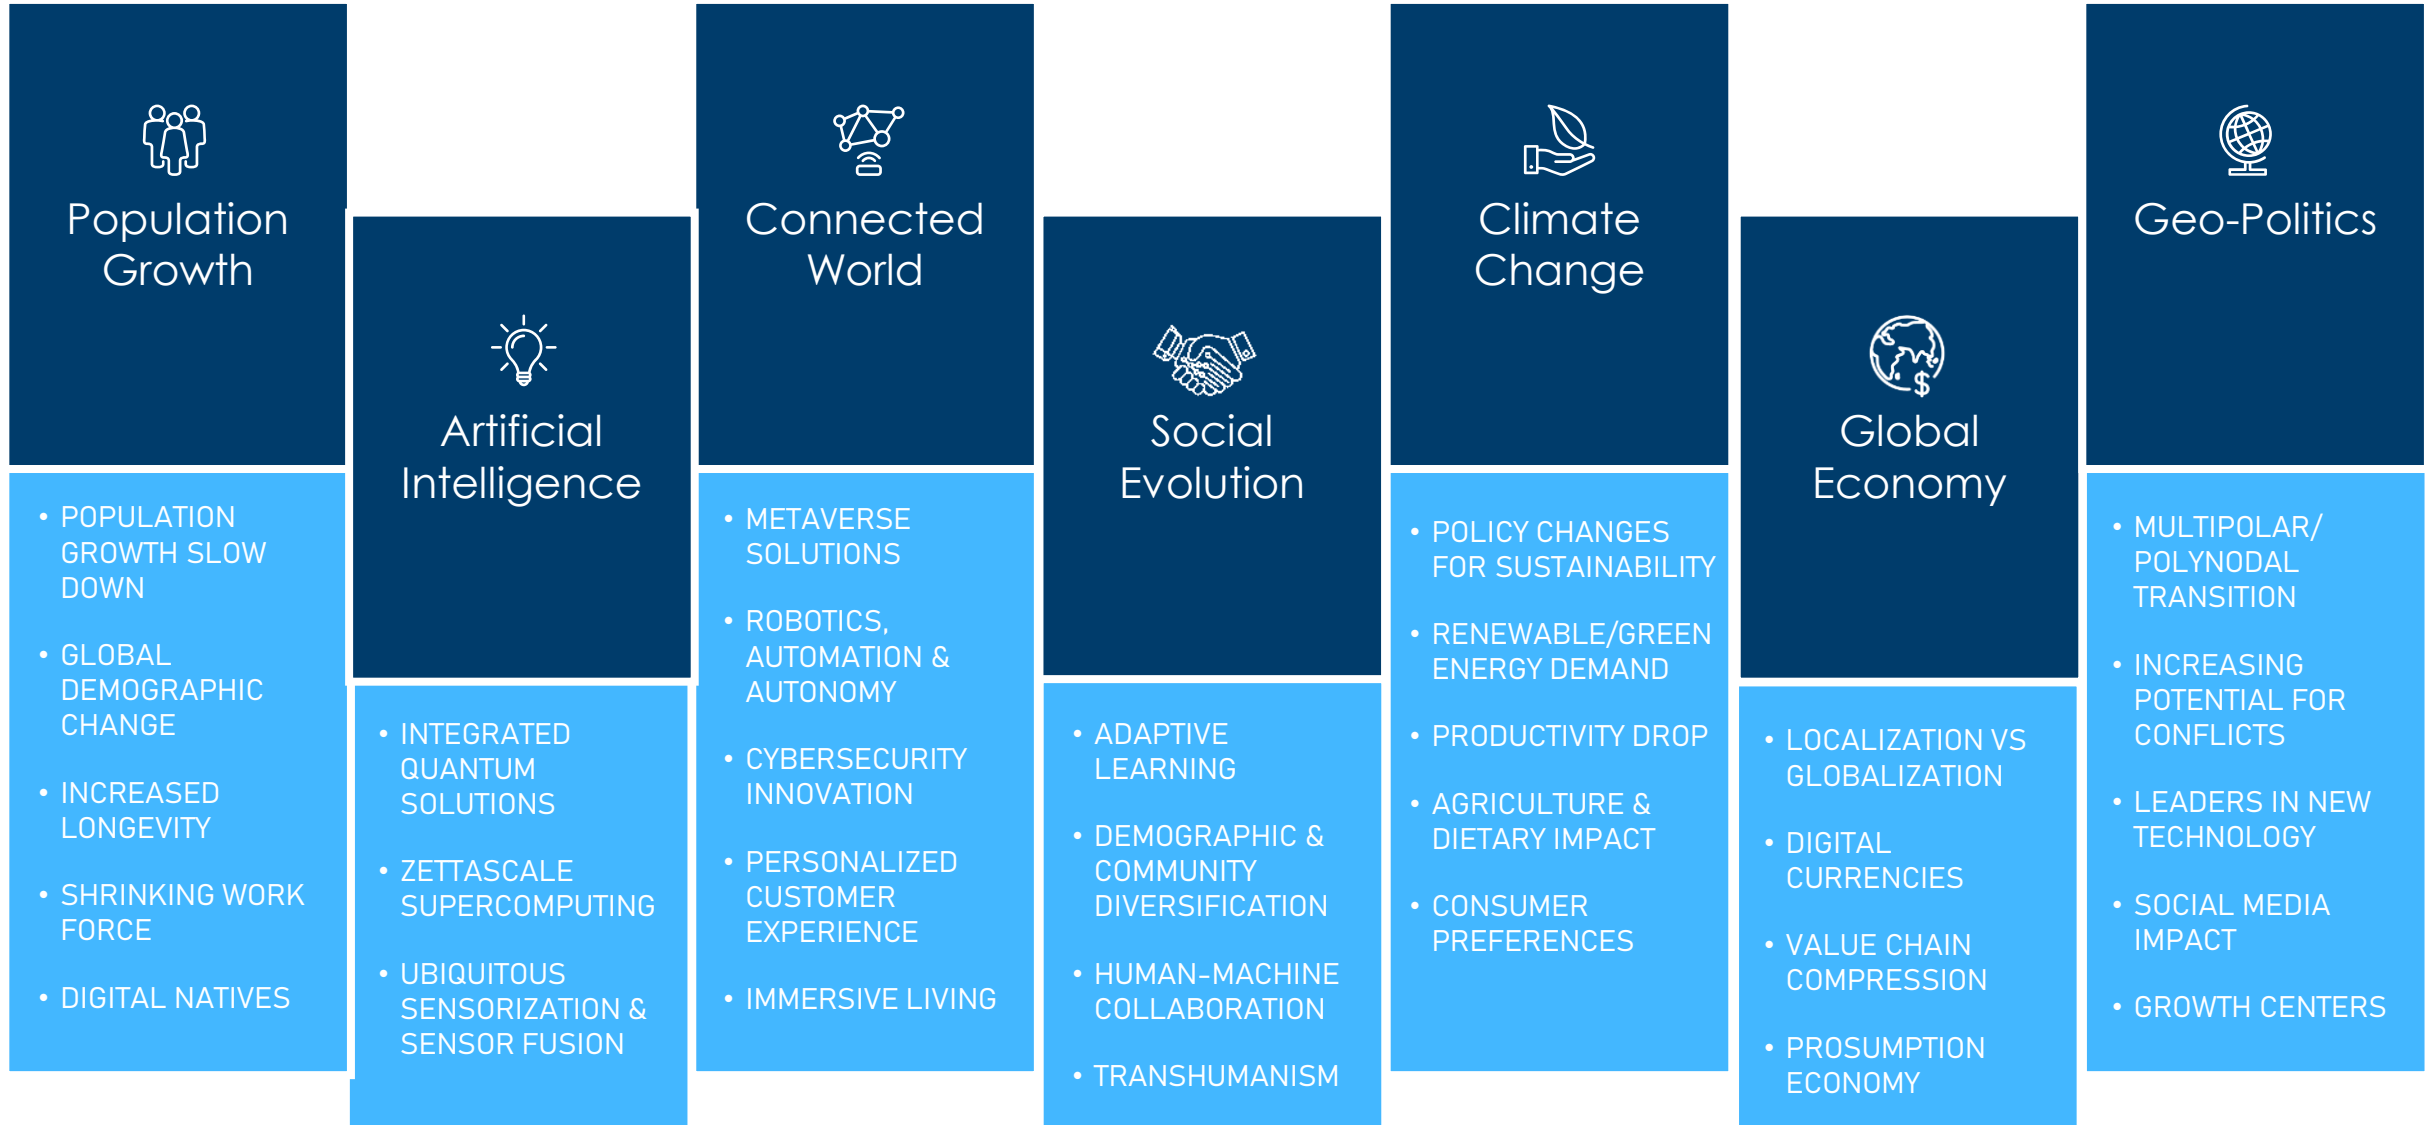

- **Cloud & Data Center Infrastructure**
- **Networking & Communications**
- **Capital Equipment**

CONNECTED LIVING & DIGITAL COMMERCE

Focusing on **multiple end-markets**.

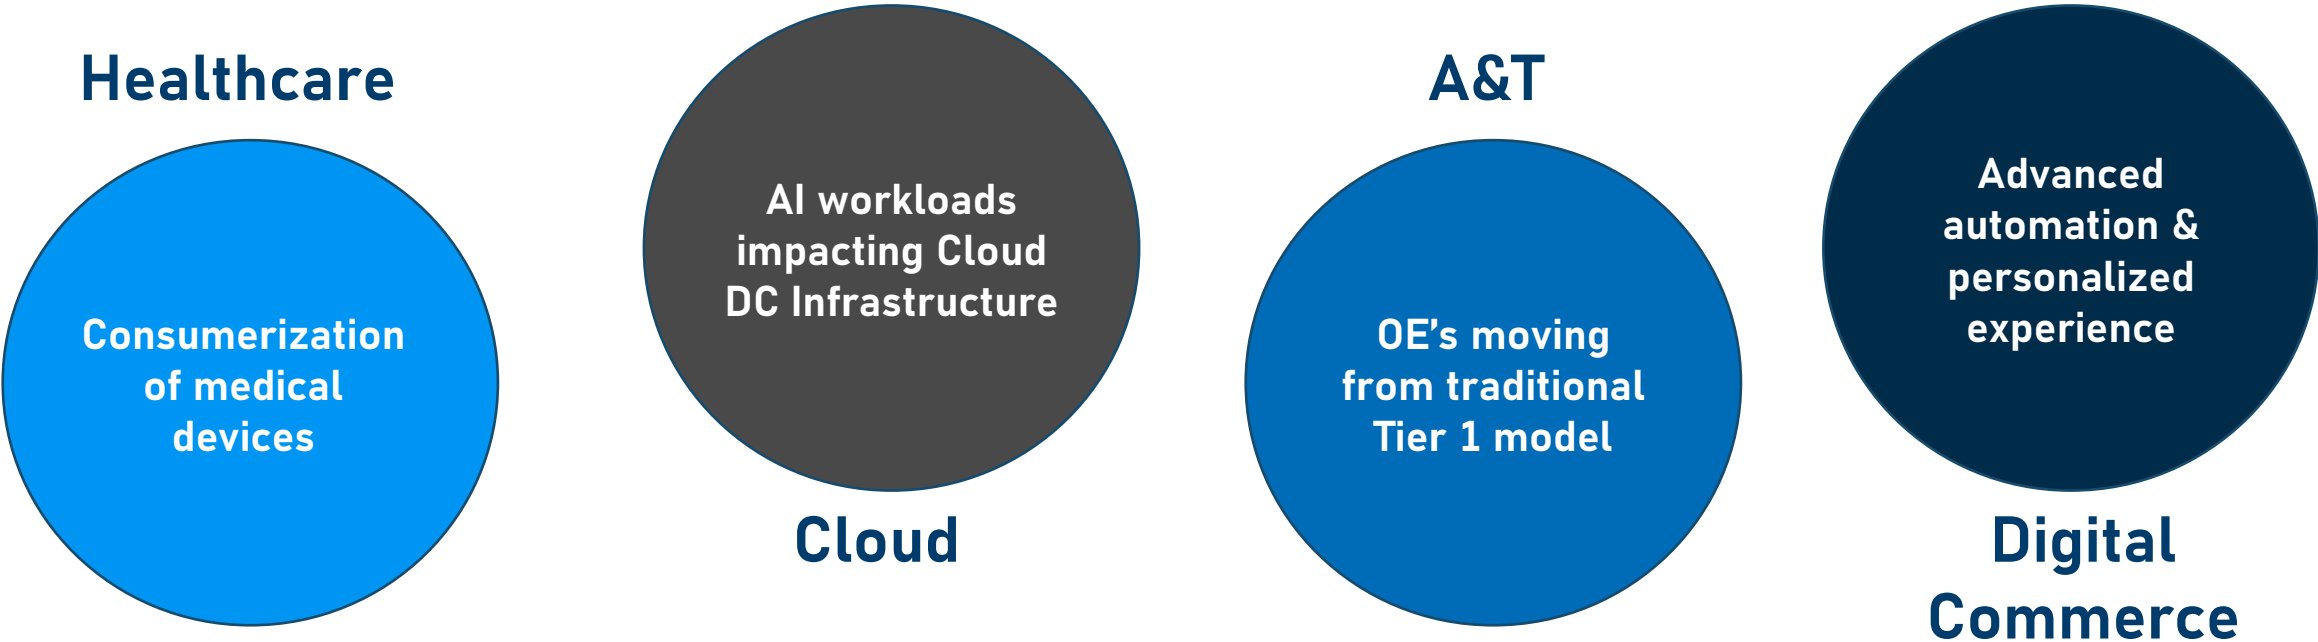

- **Connected Living**
- **Digital Commerce**
 - **Warehouse Automation**
 - **Robotics**
 - **Robots / Humanoids**

Global Mega Trends 2040

Shifting Value Chain

New Technologies & Evolving Customer Needs Driving Change

New opportunities for Jabil engineering and our supply partners

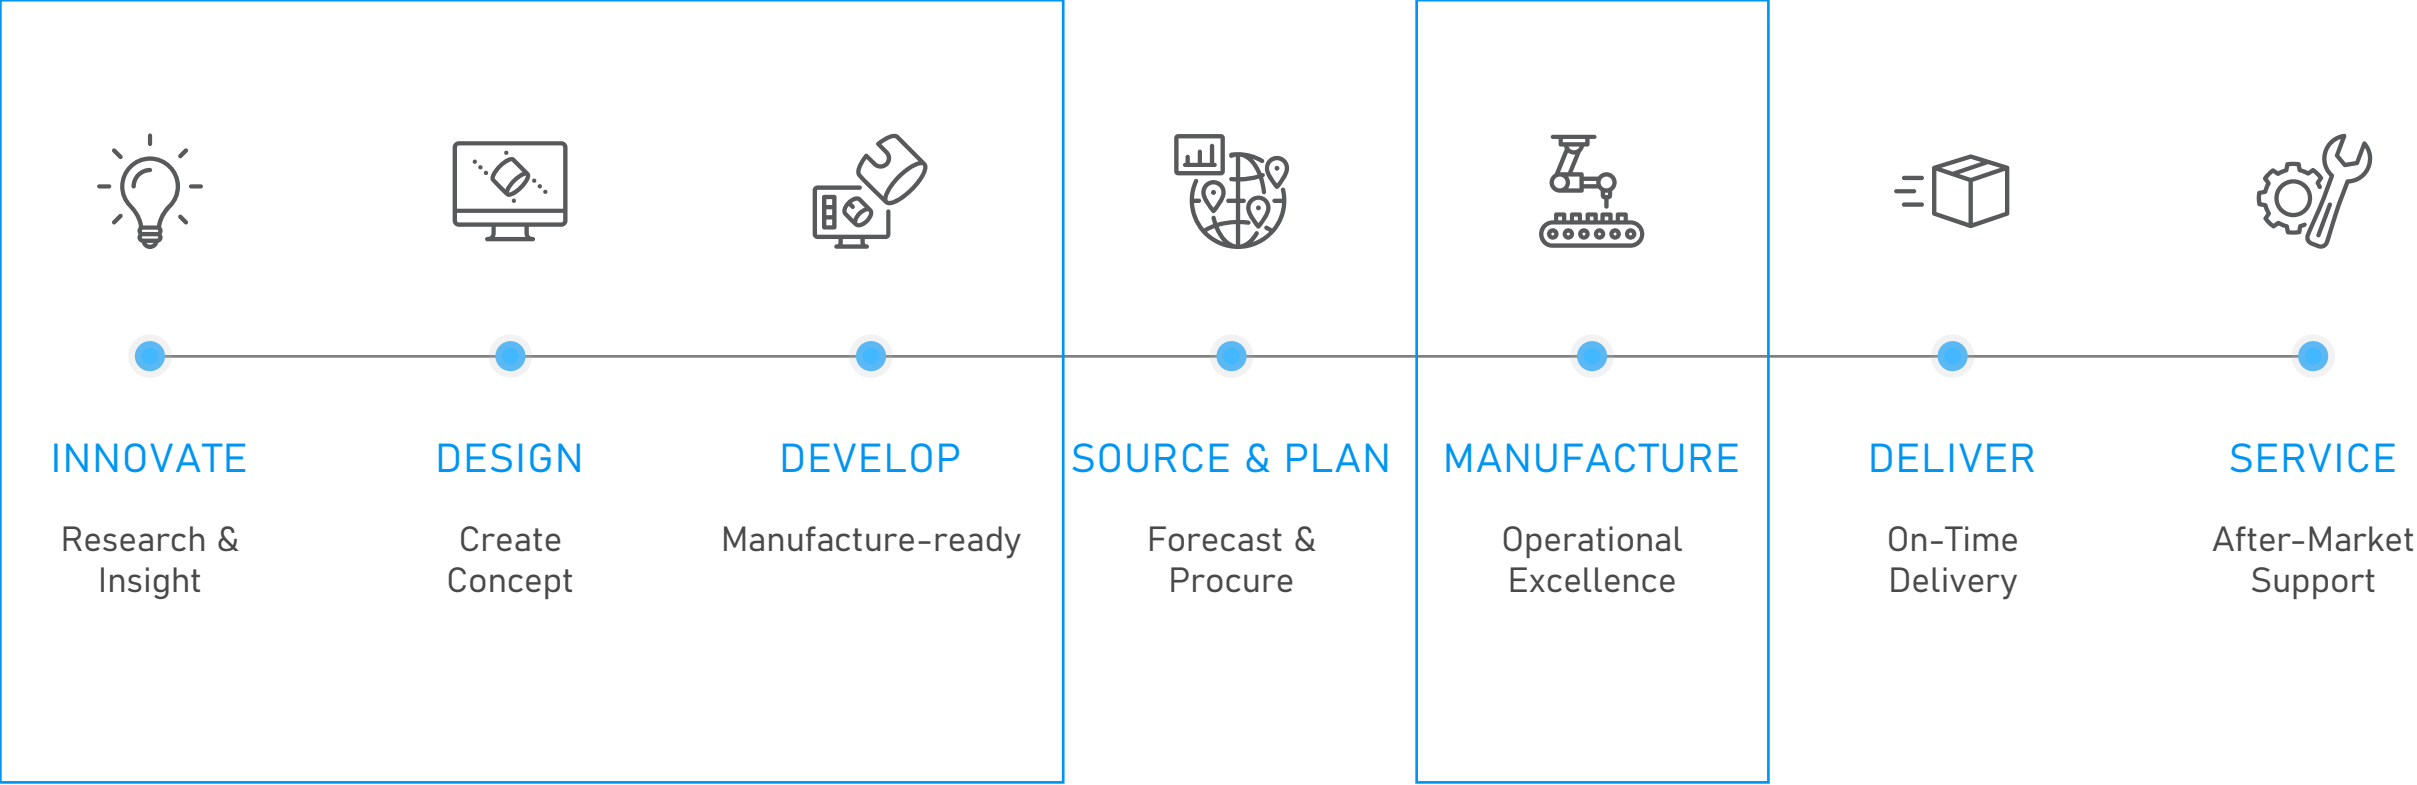

Integrated Design Engineering at Any Scale

We design **products, processes, and equipment** for **low volume/high mix** and **high-volume** production.

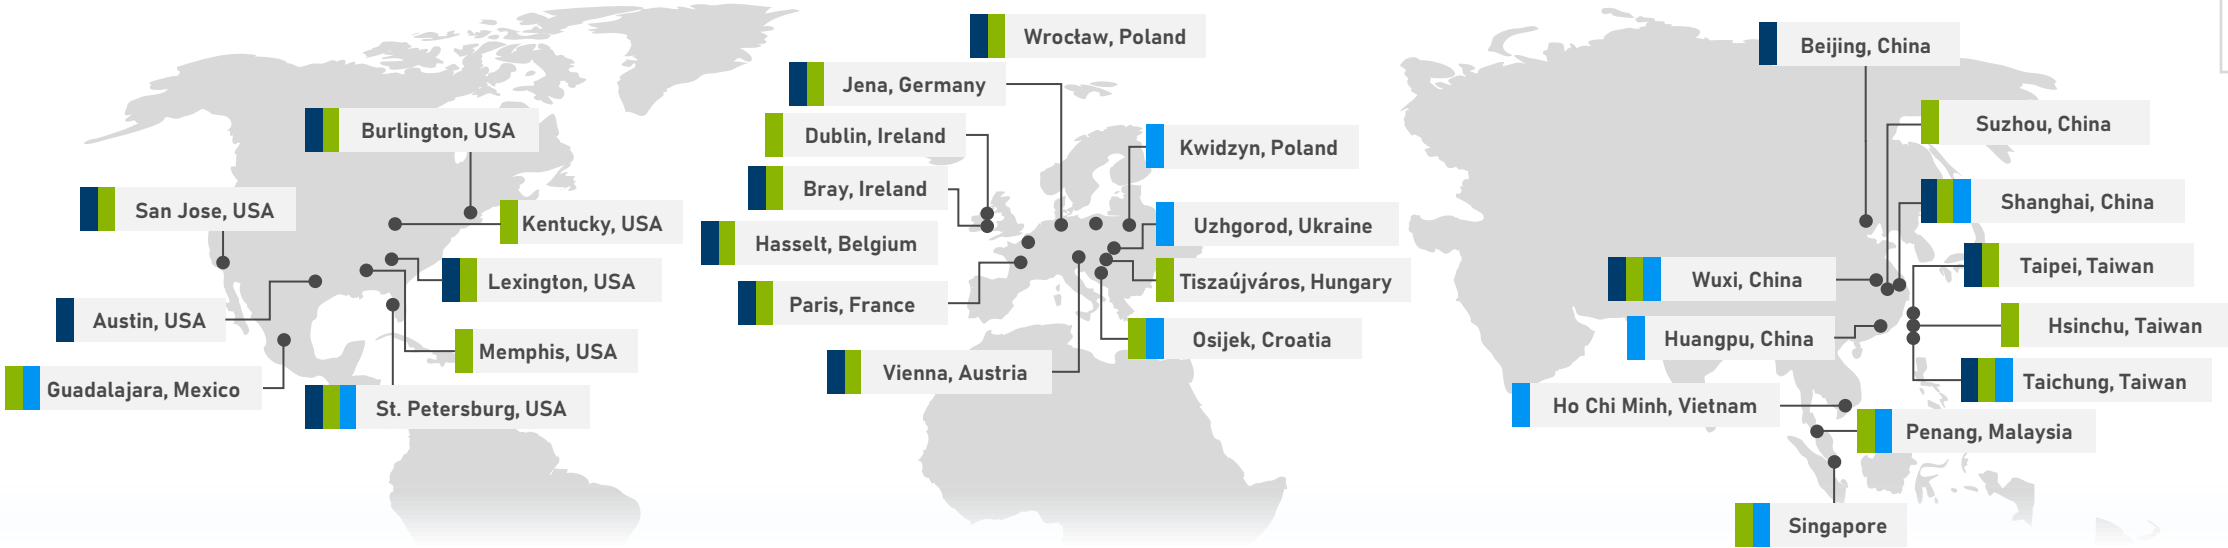

Our Reach: The Full Product Lifecycle

Diverse Design & Development Footprint

Key

- Design
- Engineering Services
- Test Development

AMERICAS

Austin, USA	Design
Burlington, USA	Design Engineering Services
Guadalajara, Mexico	Engineering Services Test Development
Kentucky, USA	Engineering Services
Lexington, USA	Design Engineering Services
Memphis, USA	Engineering Services
San Jose, USA	Design Engineering Services
St. Petersburg, USA	Design Engineering Services Test Development

EUROPE

Bray, Ireland	Design Engineering Services
Dublin, Ireland	Engineering Services
Hasselt, Belgium	Design Engineering Services
Jena, Germany	Design Engineering Services
Kwidzyn, Poland	Test Development
Osijek, Croatia	Engineering Services Test Development
Paris, France	Design Engineering Services
Tiszaújváros, Hungary	Engineering Services
Uzhgorod, Ukraine	Test Development
Vienna, Austria	Design Engineering Services
Wroclaw, Poland	Design Engineering Services

ASIA

Beijing, China	Design
Hsinchu, Taiwan	Engineering Services
Huangpu, China	Engineering Services Test Development
Ho Chi Minh, Vietnam	Engineering Services Test Development
Penang, Malaysia	Engineering Services Test Development
Shanghai, China	Design Engineering Services Test Development
Singapore	Engineering Services Test Development
Suzhou, China	Engineering Services
Taichung, Taiwan	Design Engineering Services Test Development
Taipei, Taiwan	Design Engineering Services
Wuxi, China	Design Engineering Services Test Development

Business Models

Business Model	Product IP Ownership	Product Architecture Definition	Product Specification Finalization	Engineering Services	Manufacturing Development	Manufacturing
Build to Print	Customer/ 3 rd Party	Customer/ 3 rd Party	Customer/ 3 rd Party	Customer/3 rd Party/ JABIL	Customer/ 3 rd Party/ JABIL	JABIL

RAIL

A&T Trends Creating Opportunity for Jabil

A.C.E.S. Trends 2030

ADAS/Autonomous
96% of new cars with advanced assistance features*

Connectivity
98% of cars shipped with embedded connectivity

Electrification
38% of light vehicles sold with BEV powertrain

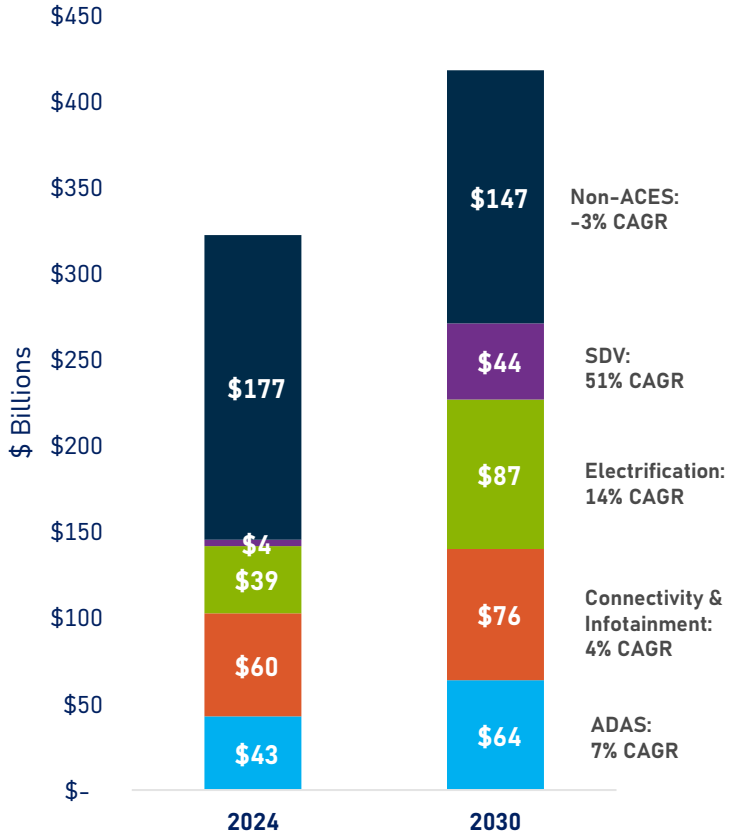

SDV/Centralized Architecture
50% Centralized architectures to deliver high computing power

Technology / Products

- Domain Control Unit
- ECU
- LIDAR
- Camera
- Image Processing Unit
- Telematics Control Unit/V2X
- Gateway Module
- Cockpit Domain Control Unit
- Advanced Projection
- In-Vehicle Infotainment
- Cockpit Information Display
- High Voltage Traction Inverter
- Integrated Unit
- Battery Management Unit
- EV Level 2 Charger (AC)
- On Board Charger (ACDC)
- High Voltage DCDC Converter
- EV Rapid Charger (DC)
- Control Unit (EV PT DCU)
- Pwr Dist/Battery Junction Box
- High Performance Computer
- Zonal Controller

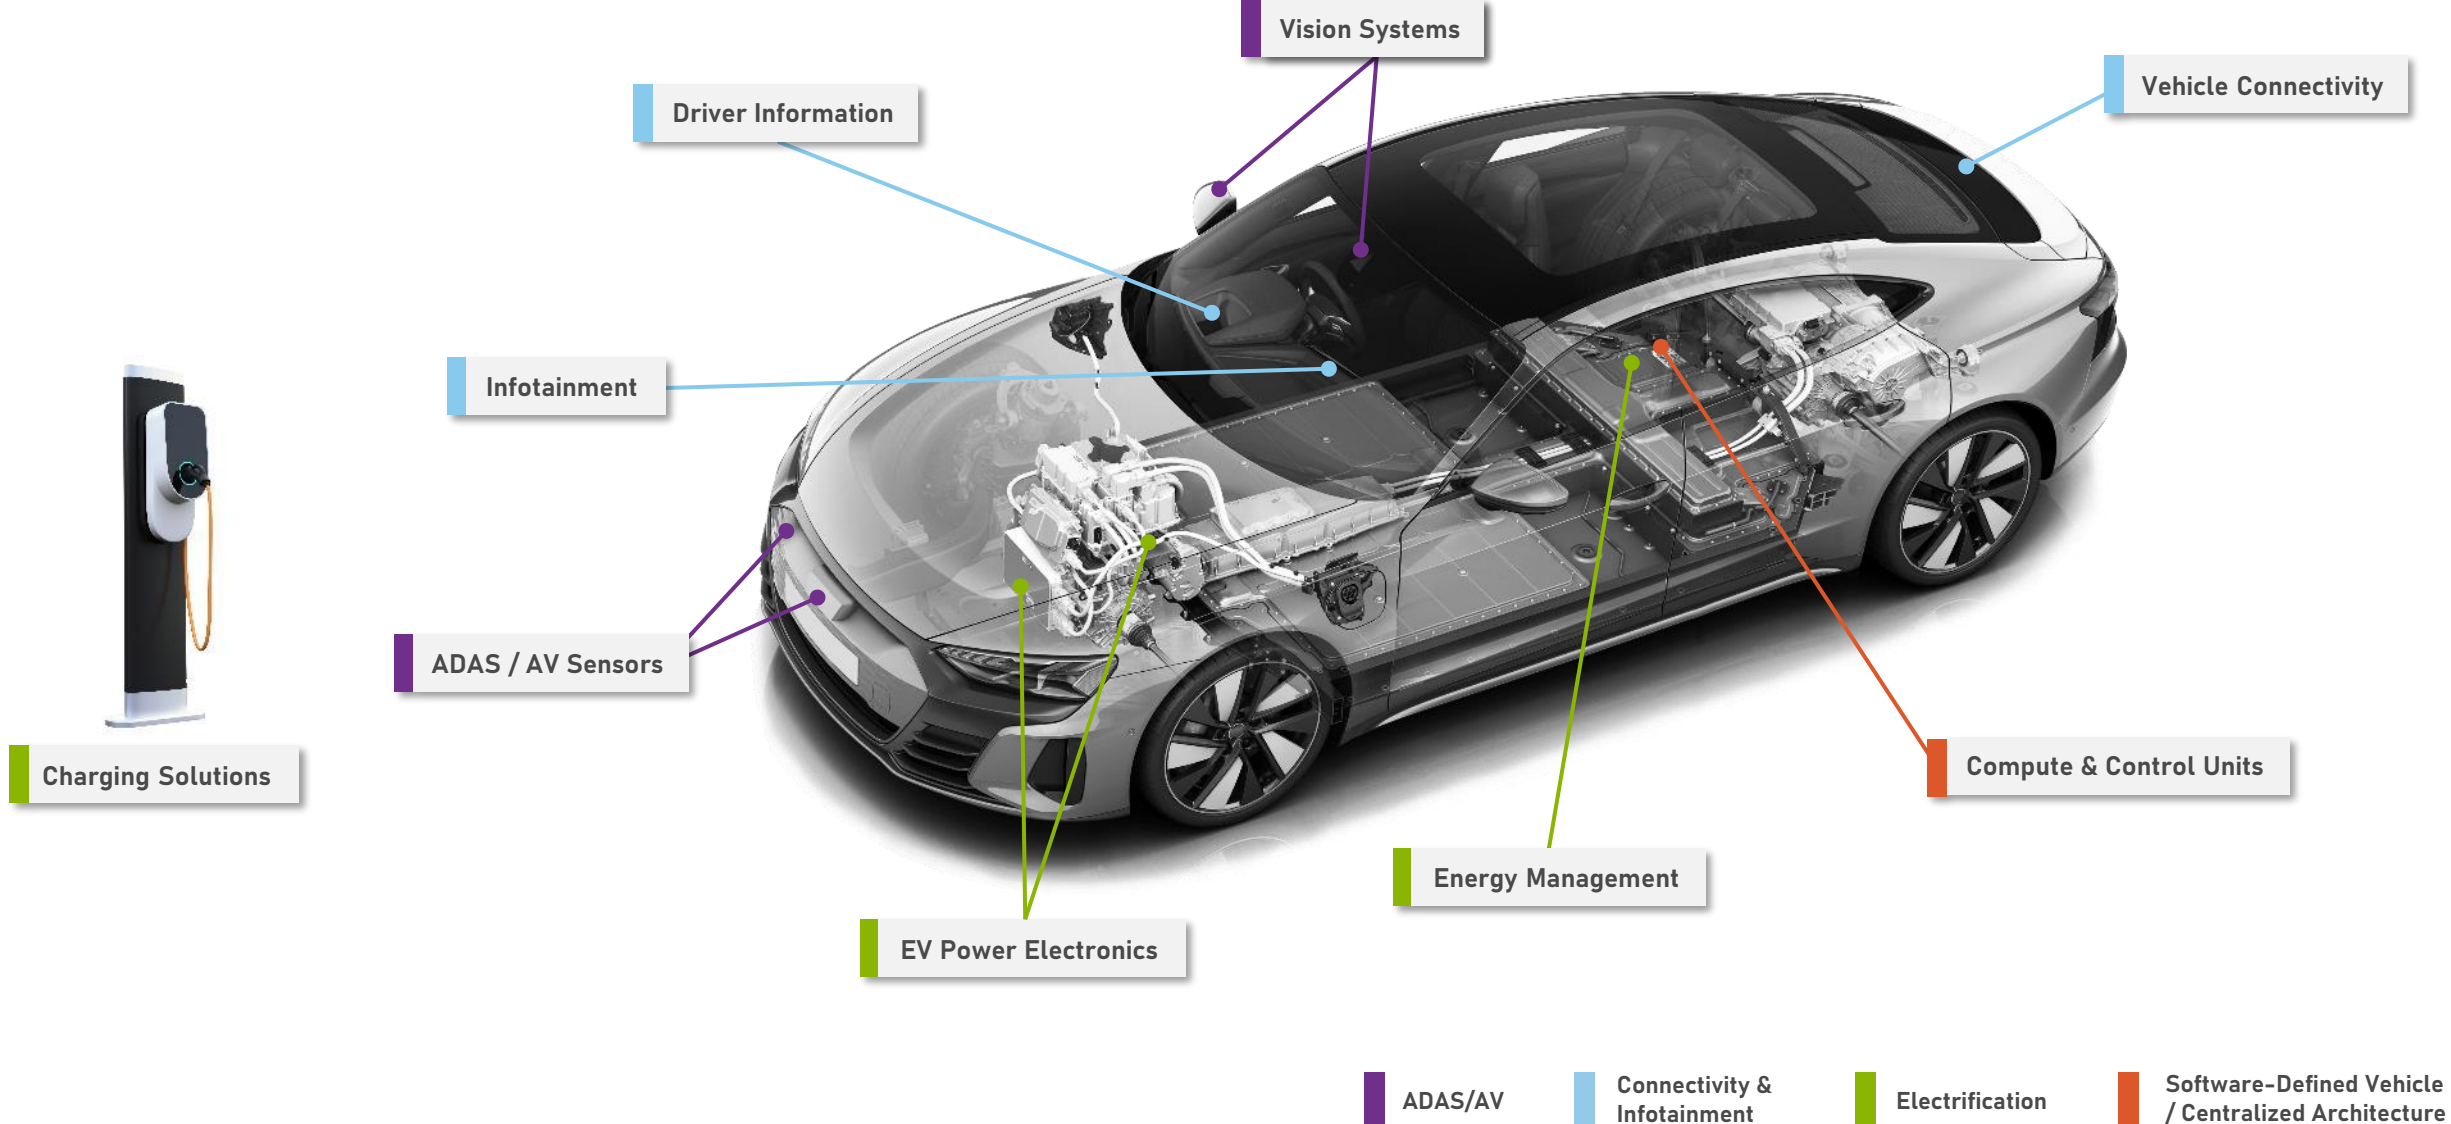

Automotive Electronics TAM : 4.5% CAGR
 Targeted ACES TAM : 18.4% CAGR

*examples = lane keeping, emergency braking, adaptive cruise control, blind spot detection

Source : TechInsights Jan 2024 Electronics System Demand

Automotive

Precision Agriculture

- Autonomous & Precision Farming
- Connectivity & Infotainment
- Electrification
- Software-Defined Vehicle / Centralized Architecture

Product Portfolio

Electrification

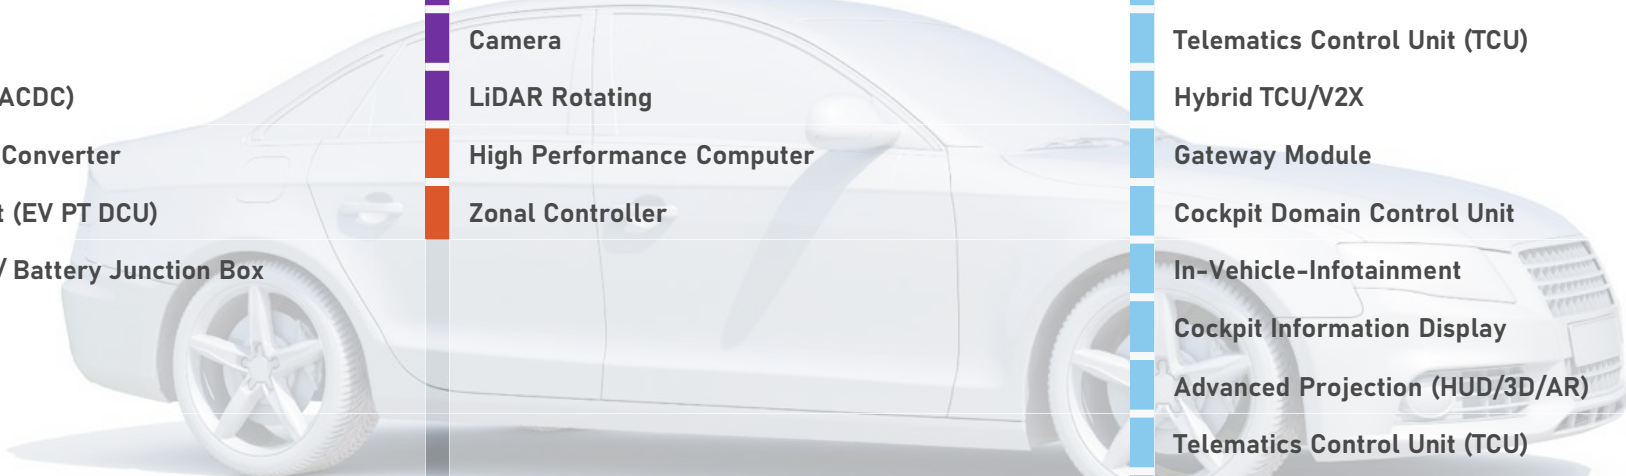

- High Voltage Traction Inverter
- Integrated Unit (eg. OBC/DCDC/Inverter/BMS/BJB)
- Battery Management Unit (BMS Master)
- EV Level 2 Home / Public Charger (AC)
- EV DC Fast Charger
- On Board Charger (ACDC)
- High Voltage DCDC Converter
- Vehicle Control Unit (EV PT DCU)
- Power Distribution / Battery Junction Box

ADAS/AV & SDV

- Image Processing Unit
- ADAS/AV Domain Control Unit
- ADAS ECU
- LiDAR Solid State (Scanning/Flash)
- Camera
- LiDAR Rotating
- High Performance Computer
- Zonal Controller

Connectivity

- V2X / eCall
- Instrument Cluster
- Audio / Entertainment
- HUD (Traditional Windscreen PGU / Combiner)
- Telematics Control Unit (TCU)
- Hybrid TCU/V2X
- Gateway Module
- Cockpit Domain Control Unit
- In-Vehicle-Infotainment
- Cockpit Information Display
- Advanced Projection (HUD/3D/AR)
- Telematics Control Unit (TCU)
- Hybrid TCU/V2X

CONNECTED LIVING & DIGITAL COMMERCE

Digital Commerce

2024 Supplier Summit

JABIL

Jabil Digital Commerce

Jabil Digital Commerce
FY25E: \$2.3B

Markets

IN WAREHOUSE

IN AISLE

AT CHECKOUT

ON THE GO

Trends Creating Opportunity for Jabil

Trends 2028

In Warehouse

26% of warehouses will have some form of automation by 2027 and growing significantly

Technology

- Battery
- Optics
- LIDAR / VSLAM
- Actuators

Products

- Humanoids
- AMR/AGV
- Material Handling Systems

In Aisle

of Walmart shelves will be digital and connected through a unified commerce strategy

- Solar Powered IoT Devices
- Process Automation – High Speed

- Robotics / Optics
- DSLs (Digital Shelf Labels)

At Checkout

51% of Americans are now using contactless payment

- Payment SOM
- Android Hardening
- Large Mechanical Integration
- Sensors/ Cameras

- Self Service Checkouts
- Android Point of Sales
- Vision based Frictionless Checkouts

On the Go

80% of customers more likely to choose a business with Grab & Go services

- Automated/Robotic Arms
- Large Mechanical Integration
- Payment Solutions
- Self Service Kiosks

- Autonomous Coffee Makers
- Ghost Kitchen
- Autonomous Vending Kiosks

Demand

Overall Market, \$b

Digital Commerce 2028 Outlook

Powering Retail & Warehouse Automation

IN WAREHOUSE	\$	CAGR
AGV, AMR, PPR	\$8.1b	18%
Humanoid	\$3.6b	105%
ASRS	\$5.2b	14%
Scanners, Sensors, Printers	\$12b	7%

IN AISLE	\$	CAGR
Digital Shelf Labels	\$3.3b	21%
Shelf Data & Analytics		

AT CHECKOUT	\$	CAGR
Self Service Checkout	\$1.1b	5%
Handheld Scanner		
Printer		
Payment Terminal	\$21b	7%
POS Solutions	\$3b	15%

ON THE GO	\$	CAGR
Smart Vending Machine	\$9.4b	17%
ATM	\$2.1b	-6%

SERVICES & SOLUTIONS
Logistics as a Service
Software Services

Product Portfolio

In Warehouse

- AMR (Autonomous Mobile Robot)
- Humanoid Robots
- Scanners/Sensors
- AGV (Autonomous Guided Vehicle)
- PPR (Pick & Place Robot)
- ASRS (Automated Storage & Retrieval)

At Checkout

- Self Service Checkout
- Scanners/Optics
- POS (Point of Sale)
- Payment Terminal
- Printer

In Aisle & On the Go

- Camera/Optics
- Badger/In aisle Robot
- DSL/ESL (Digital/Electronic Shelf Label)
- Smart Vending
- ATM
- Self Service Kiosk

INTELLIGENT INFRASTRUCTURE DIVISION

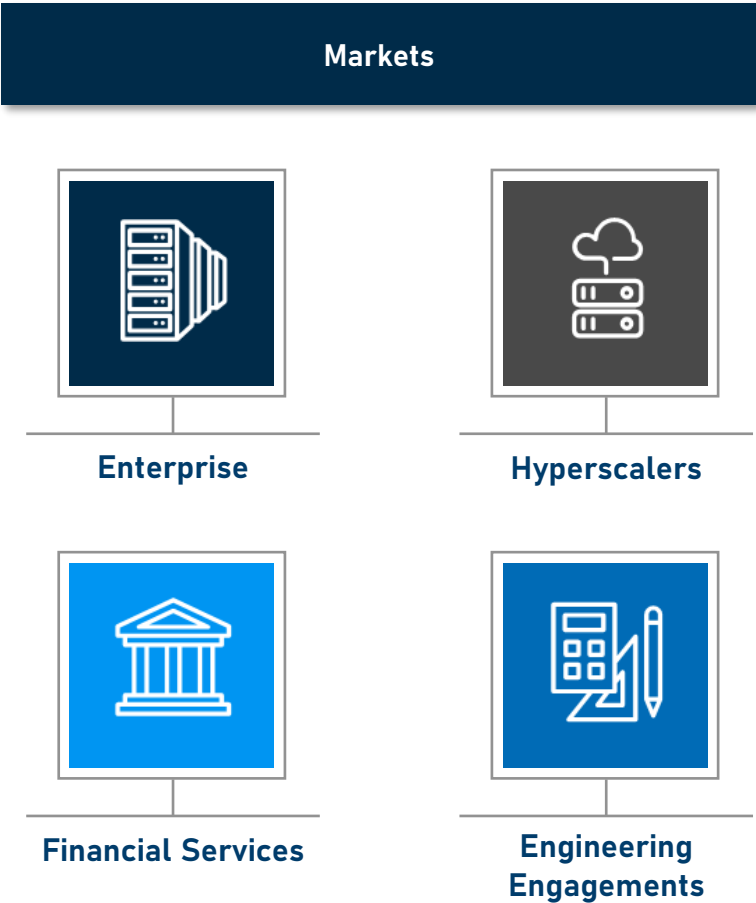

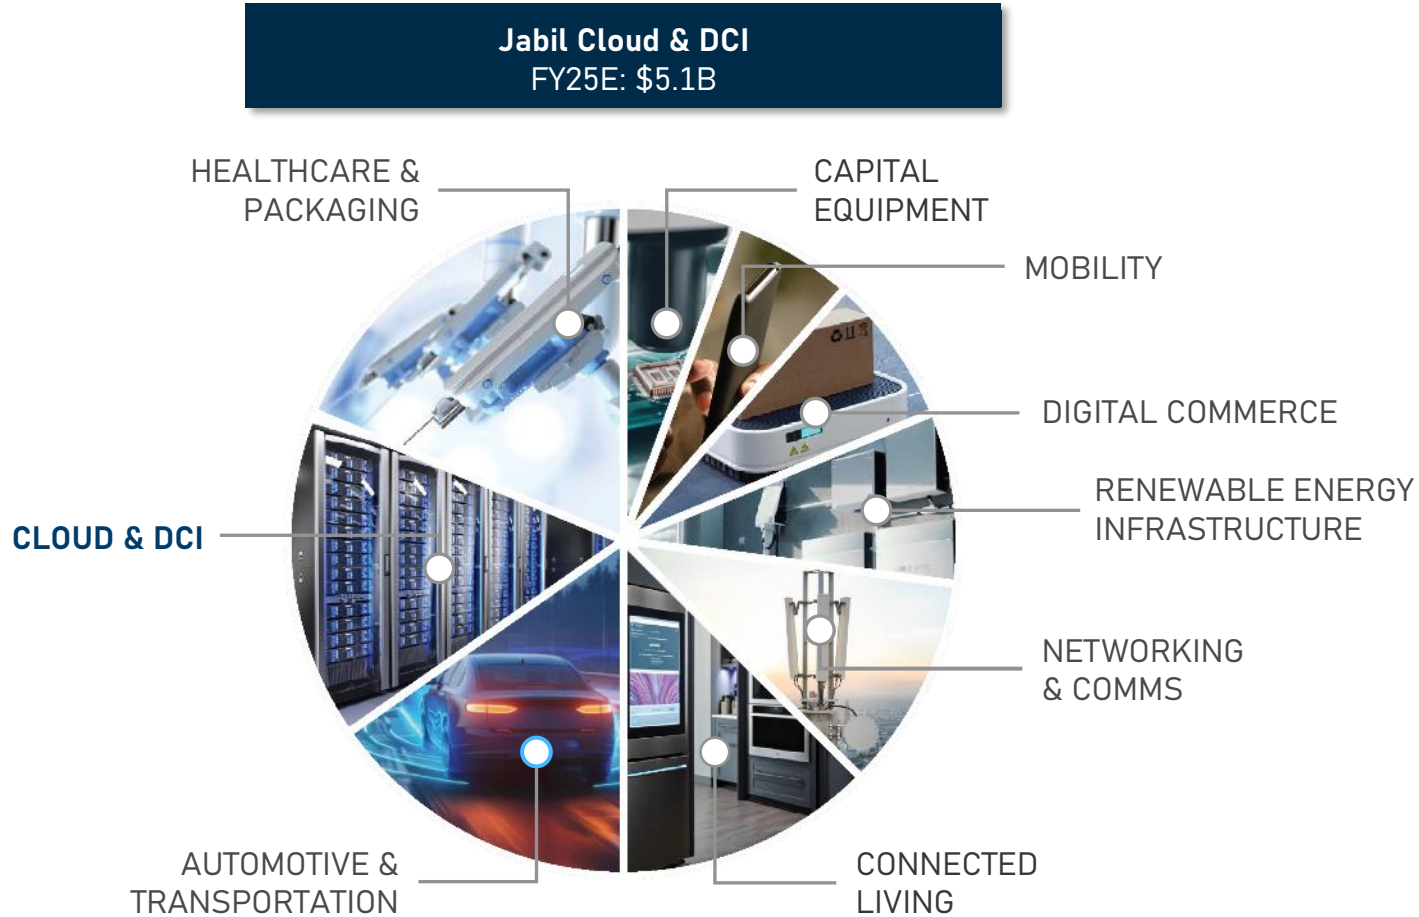

Cloud & Datacenter Infrastructure

Engineering & Technology

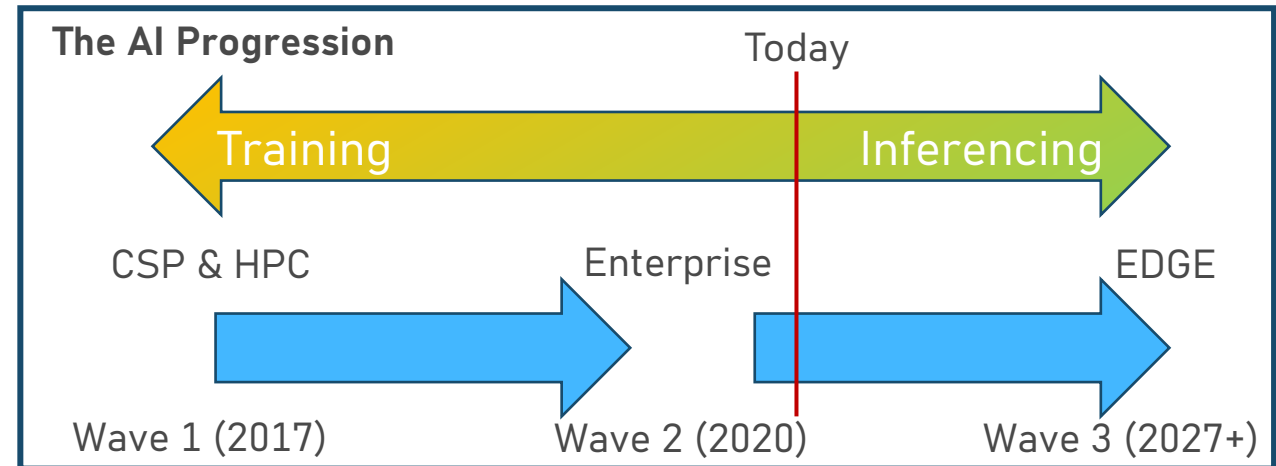

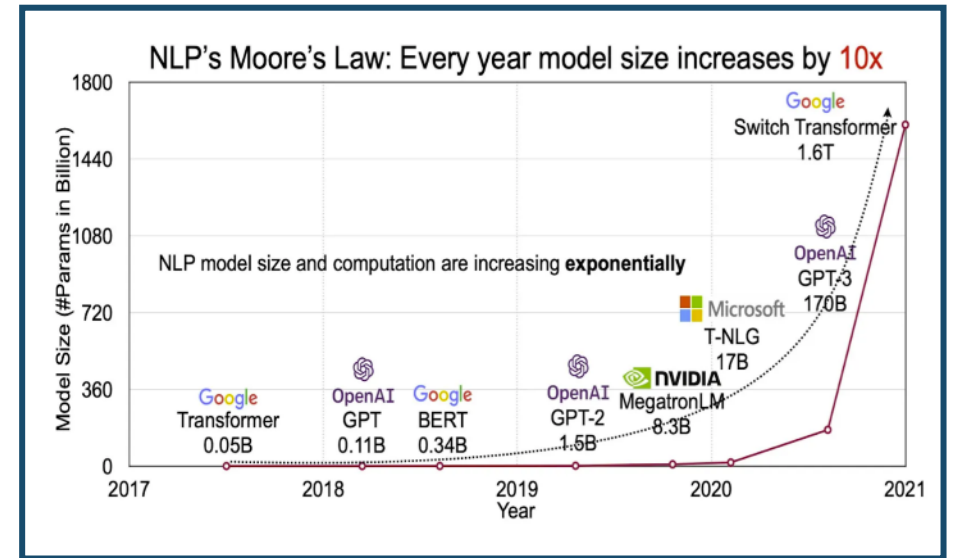

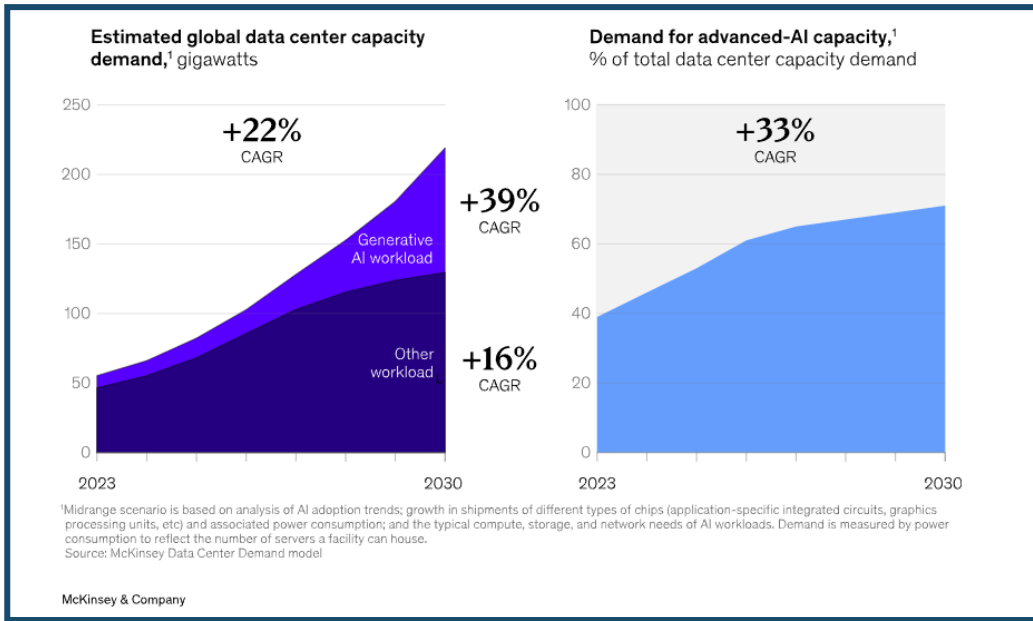

JABIL

Jabil Cloud & Data Center Infrastructure

AI Workloads Are Increasing DC Infrastructure Demands

AI's Impact on Cloud Servers and Data Centers

Increased bandwidth driving interfaces faster

Scale Out vs Scale Up

Liquid cooling is here!

Current Product Portfolio

Intel Cloud Platforms

1U FORM FACTOR

WHITLEY

JC-100 Mt. Elbert

- 1U x 30.5"
- 2x Xeon SP ICX
- 10x 2.5" / 4x 3.5" + 2x 2.5"
- SAS / SATA / NVMe
- 2x M.2 NVMe

JC-102 Mt. Princeton

- 1U x 32"
- 2x Xeon SP ICX
- EDSFF/LFF/GPU
- 2x M.2 NVMe

EAGLE STREAM

J312-S Nocona

- 1U x 30.5"
- 2x 250W Xeon SP SPR
- 12 front SFF drives
- SAS / SATA / NVMe
- 2x M.2 NVMe
- 2 Gen5 (FHHL, HHHL)
- 1 OCP 3.0 Gen5

J311-S Mustang

- 1U x 31.3"
- 1x 350W Xeon SP SPR
- 12 front SFF drives
- SAS / SATA / NVMe
- 2x M.2 NVMe
- 2 Gen5 (FHHL, HHHL)
- 1 OCP 3.0 Gen5

2U FORM FACTOR

JC-200 Mt. Massive

- 2U x 31"
- 2x Xeon SP ICX
- 24x 2.5" / 12x 3.5"
- SAS / SATA / NVMe
- 2x M.2 NVMe

J322-S King Ranch

- 2U x 30.5"
- 2x 350W 4th gen Xeon SP
- 24 front SFF drives
- SAS / SATA / NVMe
- 6 Gen5 (4 FHHL, 1 FHFL, 1 HHHL)
- 1 OCP 3.0 Gen5

In The Funnel

2U 2 socket Intel Birch Stream

- DC-MHS system
- OpenBMC/OpenBIOS
- Enabled for liquid cooling

2U 1 socket AMD SP5

- DC-MHS system
- OpenBMC/OpenBIOS
- Enabled for liquid cooling

Flexible AI Focused Chassis

- Optimized for Inferencing with 4x DW FHFL AICs
- Supports all S-DNO DC-MHS motherboard FFs

Healthcare Macro Trends

Advancing Smart Connected Care

Established MedTech companies continue to face **challenges from consumer companies** and start-ups in:

- Wearables & Hearing
- AI/data analytics
- Connected solutions

Solution-based business models will bridge strong engagement between medical device companies, healthcare facilities, and patients.

New Care Settings

- **Growth of home testing/monitoring**
- Increased adoption of telehealth and retail sites
- **Transition from hospitals to ambulatory centers**
- **Migration to home dialysis**
- Shortage of healthcare workers
- Availability of reimbursement for remote patient monitoring

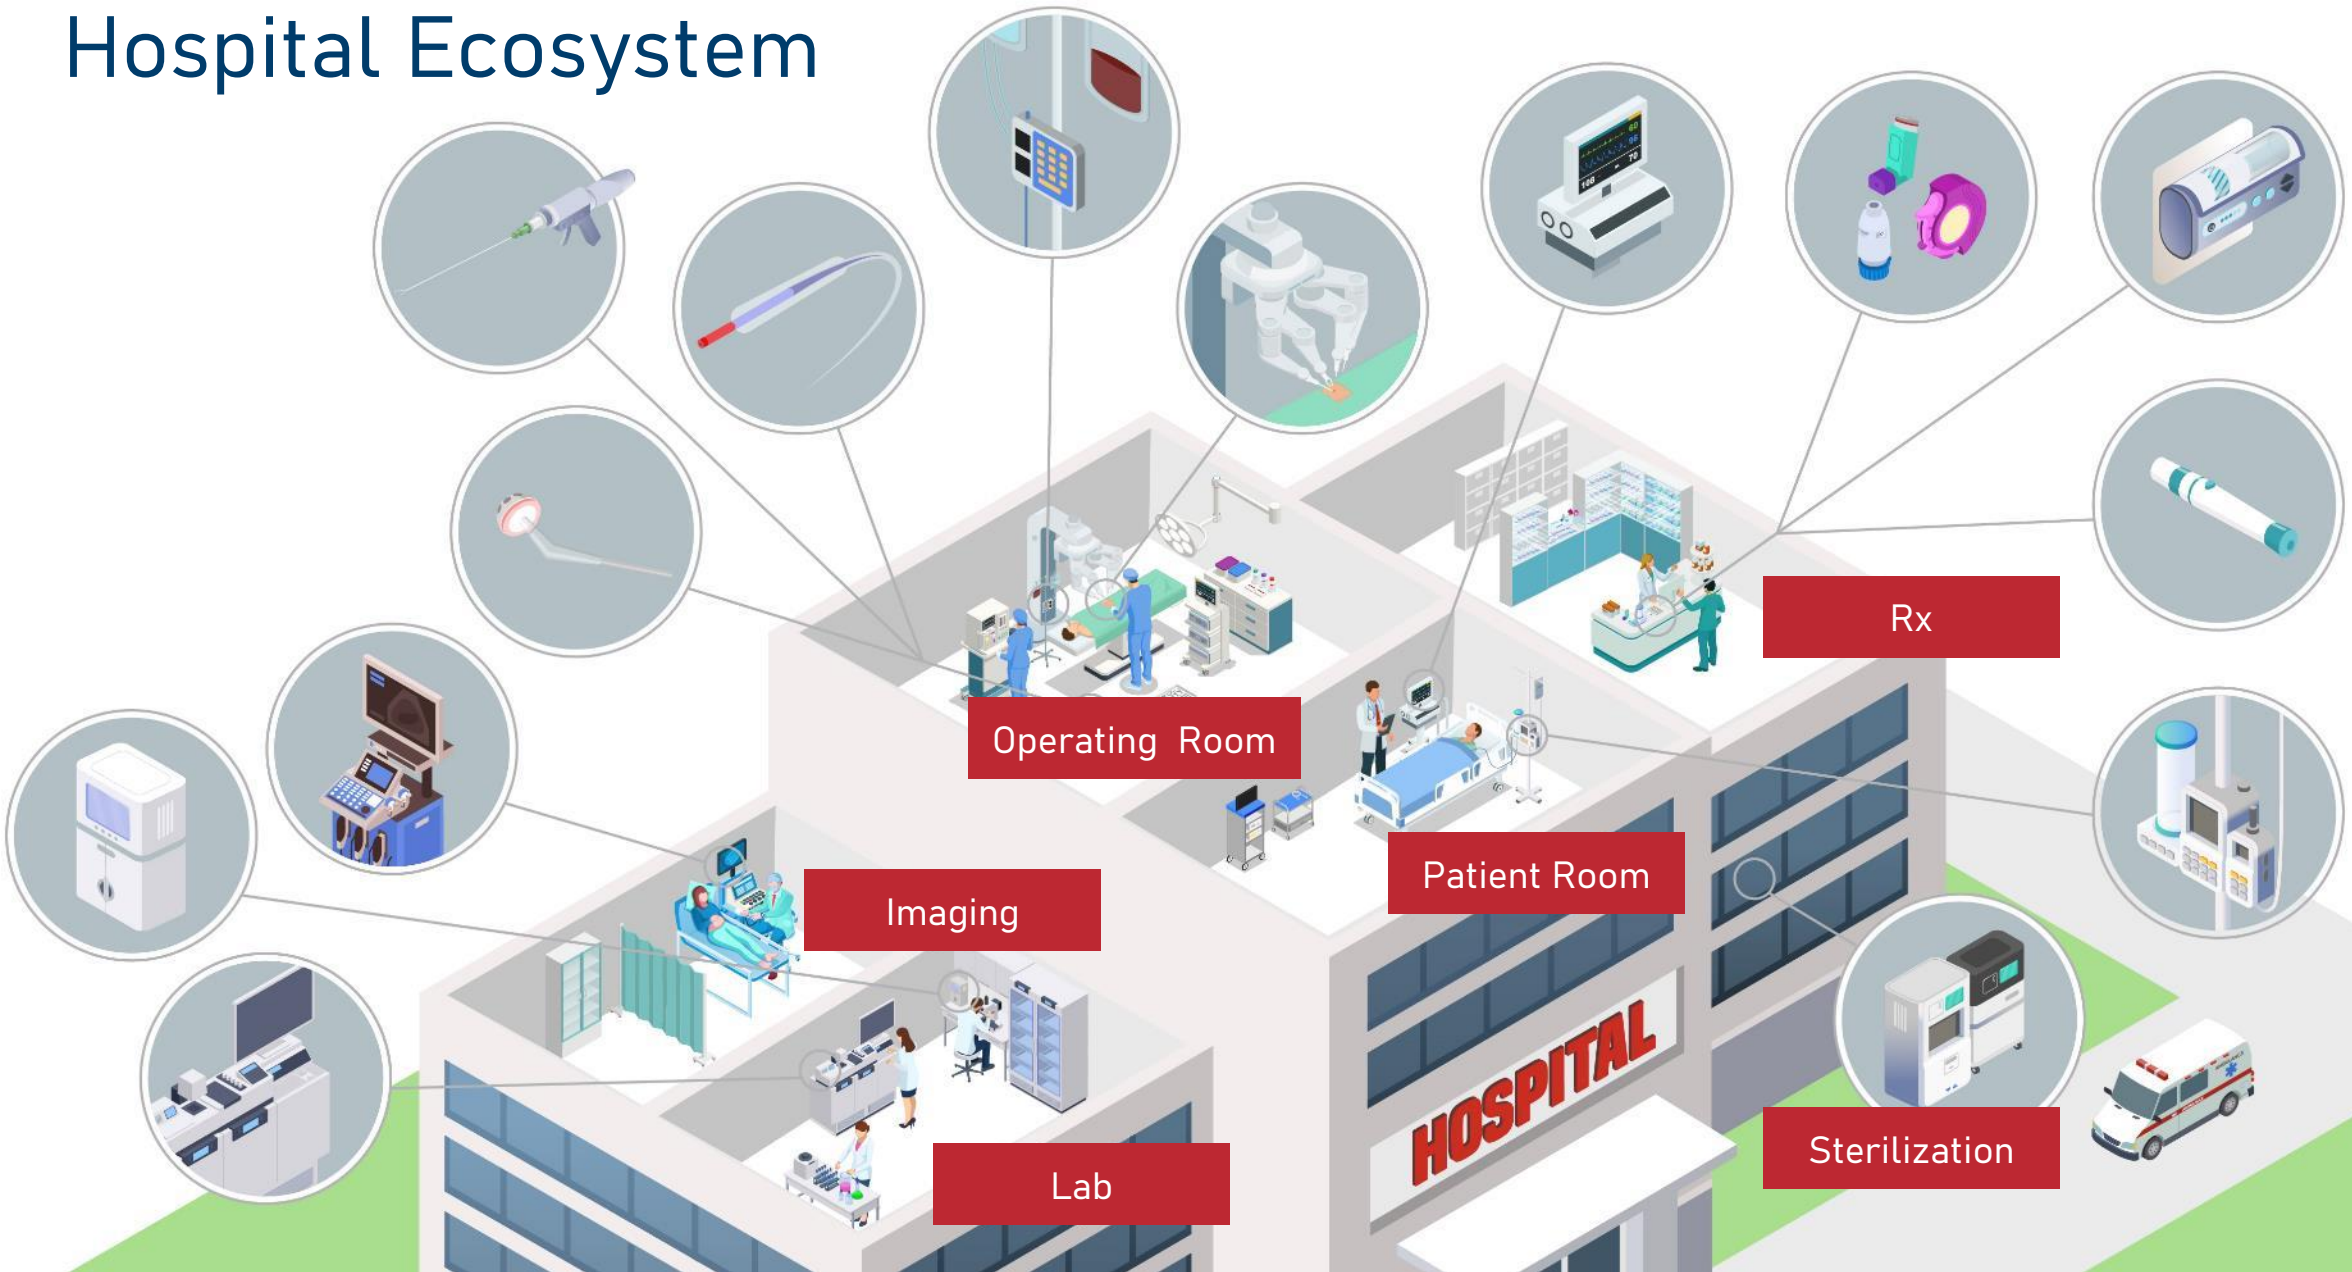

Improving Chronic Disease Outcomes

- **Population with diabetes will grow to 1b by 2045**
- **Weight loss drugs expected to reach 2b devices by 2030**
- **Growth in biologics market will drive growth in drug delivery market**
- **Expansion of genomics and in vitro diagnostics to diagnosis chronic diseases**
- Increased adoption of AI-integrated and connected devices

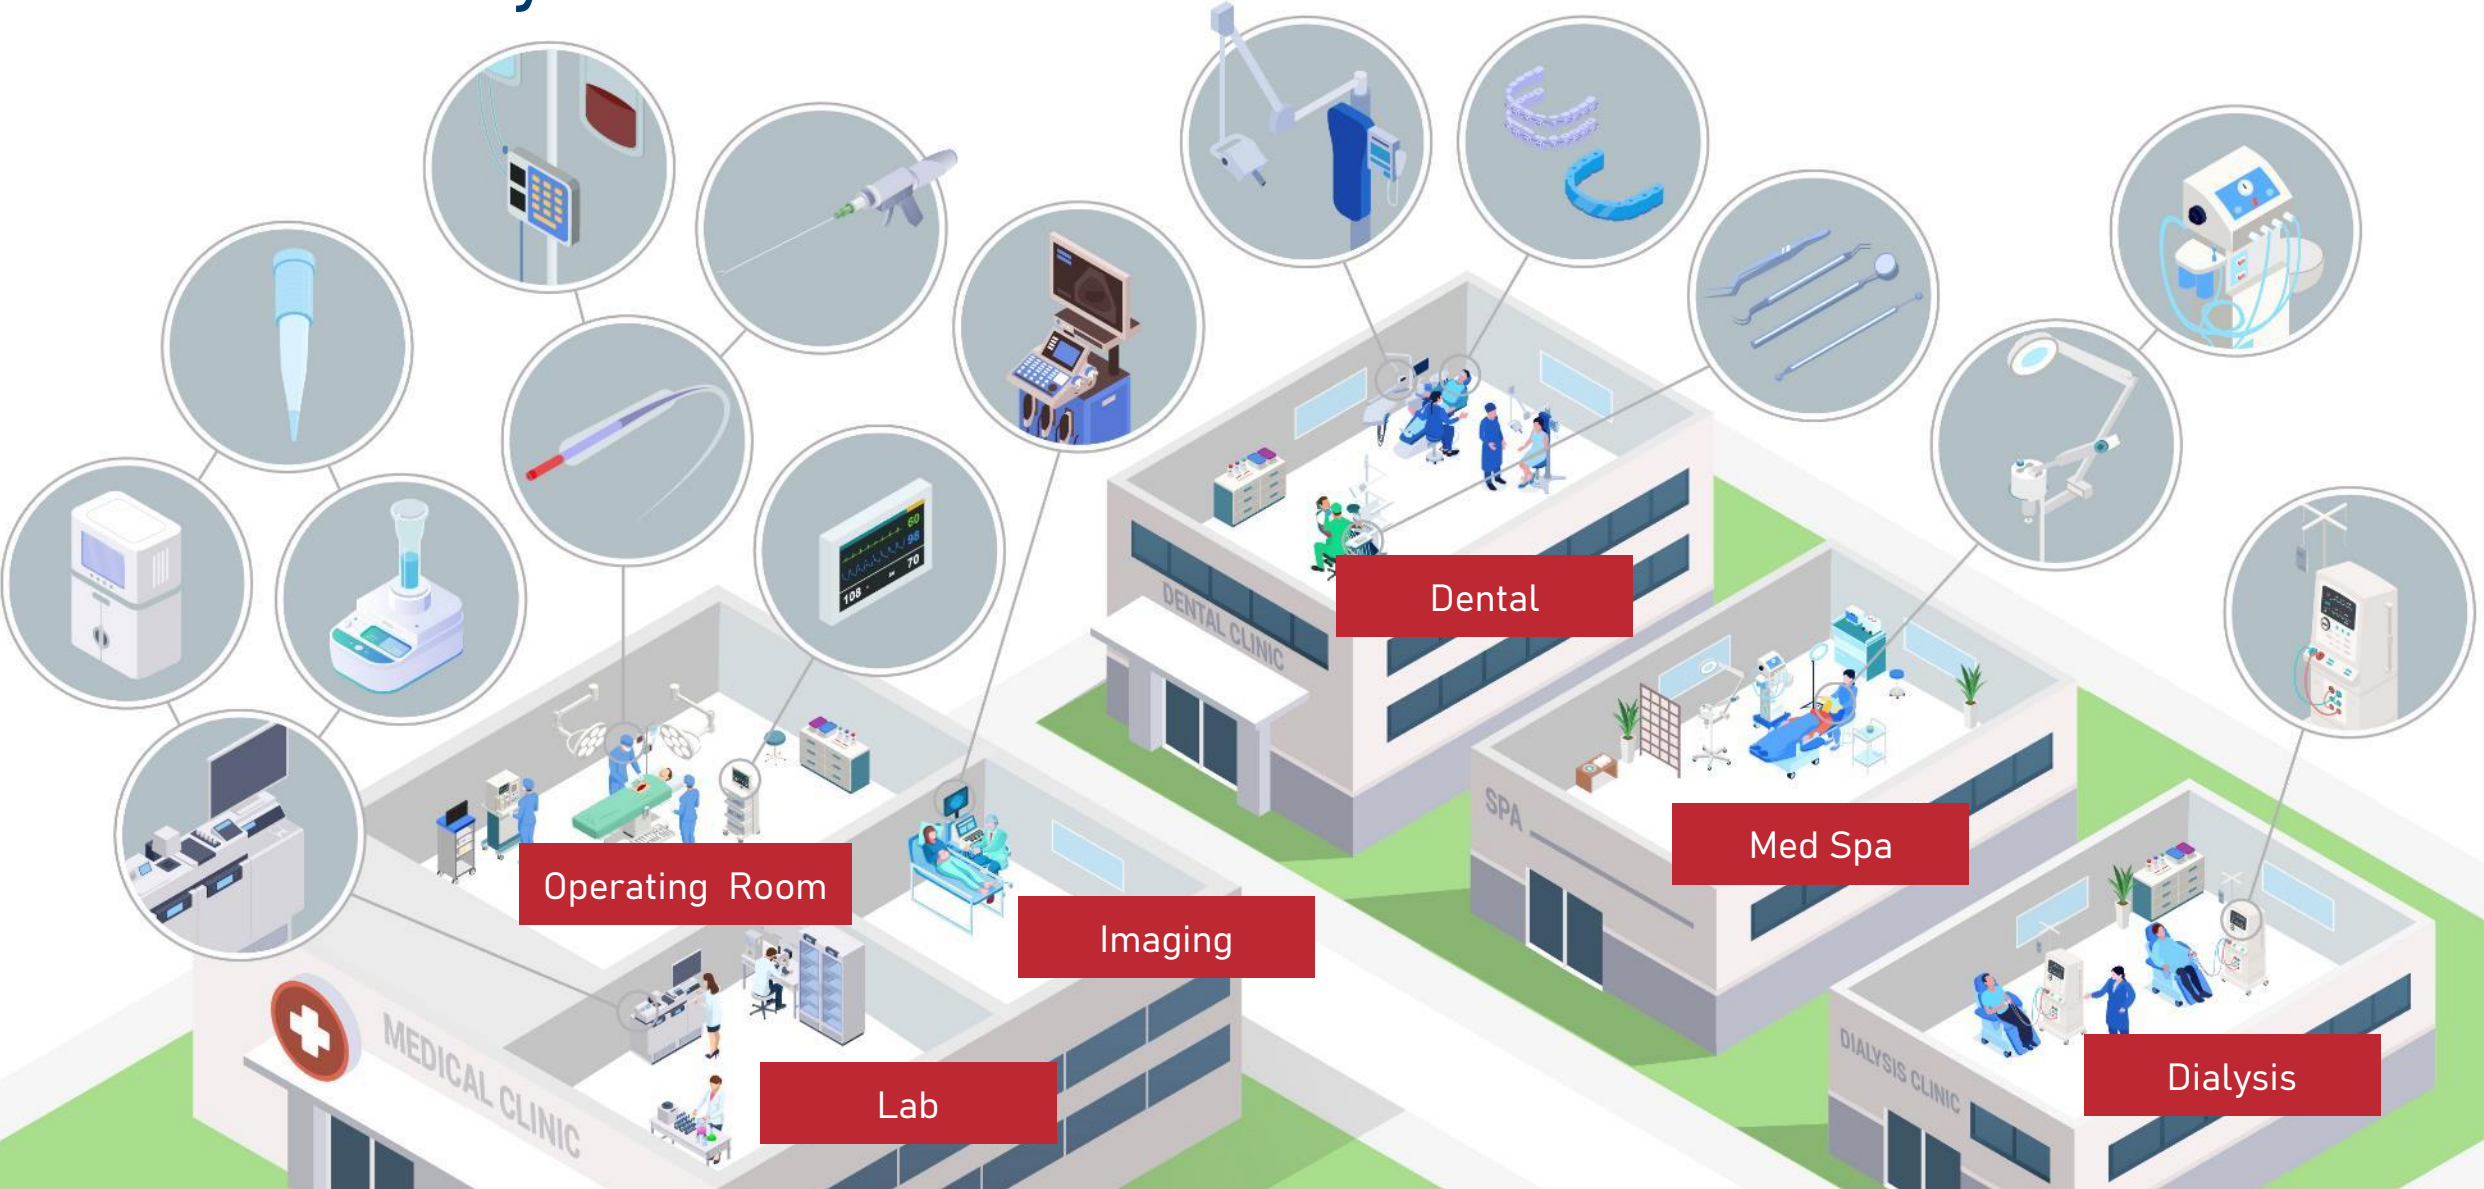

Healthcare Target Markets

DIAGNOSTICS	CLINICAL CHEMISTRY	MOLECULAR LAB	GENOMICS	LIFE SCIENCES	TEST & MEASUREMENT
					
	CAGR: 5%	CAGR: 5%	CAGR: 8%	CAGR: 5%	CAGR: 3%
	CARDIOVASCULAR	DIABETES CARE	ENDO SURGICAL	PATIENT MONITORING/ MEDICATION MANAGEMENT	ORTHOPEDICS
					
CAGR: 5%	CAGR: 6%	CAGR: 8%	CAGR: 9%	CAGR: 5%	
PHARMA	INJECTION DELIVERY	INHALATION DELIVERY	AESTHETICS	DENTAL	RENAL
					
	CAGR: 5%	CAGR: 4%	CAGR: 10%	CAGR: 7%	CAGR: 7%
